## Rudolf Steiner

The heart of the Waldorf method is that education is an art-it must speak to the child's experience. To educate the whole child, his heart and his will must be reached, as well as the mind.

Do not train a child to learn by force or harshness;

## Rudolf Steiner

If a child has been able in his play to give up his whole loving being to the world around him, he will be able, in the serious tasks of later life, to devote himself with confidence and power to the service of the world.
